

IT CYBERSECURITY ASSESSMENT

Knowledge is power.

The IT team at Nuvodia believes knowledge is power when it comes to great IT Security. We will partner with your team to understand your organization's IT Security footprint and how it relates to current technology trends. We have the tools and IT Security knowledge to help you make sense of the current IT security trends and how that relates to your organization. We believe in providing an in-depth analysis to protect today's SMBs from cybercrime.

What you will get from this FREE (\$1500 value) assessment:

- An IT Security Grade and a review of the following security features-
 - Perimeter Security
 - End-point Security
 - Content Security
 - Email Security
 - Business Continuity
 - Policy Enforcement
 - Connected Devices
- Recommendations on reducing cybersecurity vulnerabilities and improving your organizational cybersecurity footprint.
- A consultation with one of our security experts to go over an analysis in depth.
 - Backup/DR
 - Firewall, IDS/IPS
 - Server
 - VPN
 - Workstations
 - Anti-virus
 - LAN/WAN
 - Wireless
 - Spam Filtering
 - Encryption
 - Physical Environment

The cybersecurity assessment is offered as a free of charge service with our goal of enabling more SMB leaders to get a better night's sleep.

Let us show you how.
