

# IT STAFFING SERVICES

## Add top talent.

Nuvodia can help address your IT staffing needs. We source skilled and experienced professionals that fit your culture. This includes providing access to established tools and methodologies that can be tailored to the unique needs of your organization or project. Nuvodia actively manages our people, so you can focus on operations. We maintain an active line of communication with every client and offer a strategic point-of-view that goes beyond normal day-to-day account management.

### With staff augmentation from Nuvodia, you can benefit from:

- Dedicated expertise of certified technology professionals
- Flexible engagement models including short or long-term, part or full-time
- Executive account management and consulting
- Service delivery oversight and coaching from domain experts

Add top IT talent to your team, without the cost, time and risk of hiring a full-time employee. Whether you need a project manager to oversee implementation of an IT project, or you are looking for a professional to work on-site and support your long-term IT goals, Nuvodia can provide the people, skills and resources to fill the gaps and meet your fluctuating IT needs.

### Services includes:

- Project and Program Management
- IT Engineering and Support (Security, Systems, Network)
- Software Development and Quality Assurance
- Business Analysis and Continuous Improvement
- Agile Process Delivery (Product Owner, Scrum Master)

### Delivering Top Talent

We bring in exceptional talent to support you from start to finish.

### Understanding Your Business

We value your business by making your issues our own issues. We learn the ins and outs of your company, your people and industry.

### Managing for Retention

We check-in with our talent and make sure that both parties are happy, so you can hold on to them.

## Let us show you how.

Find out how Nuvodia's tailored IT solutions can help usher in a new day for your business. Call us today. 855-5-NUVODIA (855-568-8634)
