

NUVODIA SHARE

View images anytime, anywhere.

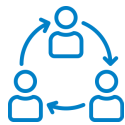

Nuvodia Share is a cloud-based image exchange platform created to enable providers to share medical images with other care providers, hospitals, and patients.

Nuvodia Share provides a fully-managed, cloud-based Medical Image Management platform built to connect healthcare providers to the radiology data they need. Partner with Nuvodia to optimize your image exchange network; eliminating CD's, VPN tunnels and costly delays.

Why choose Nuvodia Share?

- Secure, cloud-based platform.
- Easy end-user registration and access.
- Centralized management of image requests.
- Integrated PACS workflow.

How it works?

Extend PACS

Available through a simple right click, Nuvodia Share allows you to send or receive images securely using our cloud-based platform.

Save Time

Quickly and securely upload medical images to our cloud-based platform, where shared access is fast and easy.

Work Efficiently

No longer is it necessary to create secure network tunnels to transfer images; with Nuvodia Share you can share anytime, with anyone.

What's our service delivery model?

The Nuvodia Service Delivery Model is a way of delivering technology that creates alignment between our organization and yours. We succeed only when you succeed.

- Solutions are engineered to meet a 99% uptime guarantee.
- End-User and IT Technical Support available 24x7x365.
- Pay a simple, all-inclusive fixed fee per study.
- Bundled Solutions create one point of contact for your radiology workflow.
